

### Map Evaluation Form

1. Things are generally where they are supposed to be and nothing major is left out. The map is accurate.

Group 1

Group 2

Group 3

2. Things on the map are orderly and neatly drawn. The shapes of things on the map have the same (or similar) shapes as the real things. The map is easy to read and follow.

Group 1

Group 2

Group 3

3. Larger things are also larger on the map than things that are smaller. Things that are nearer to or further from each other are the same way on the map. The map is generally in proportion.
